BEE-LINE Driver Comes to the Rescue of Baby Needing CPR in Getty Square

Toney McPhail was on his break from the Route 78, and getting a cup of tea, when he heard a woman shouting “my baby can’t breathe, my baby can’t breathe”. He immediately ran to help.

He compressed the baby boy’s chest three times, the baby coughed up phlegm, and then the baby went into a seizure. Toney knew exactly what to do from his training as a body guard for Warner Brothers and massaged the infant’s body since the limbs tighten up during a seizure. A few minutes later the baby stopped seizing and an EMT arrived. If it wasn’t for Toney’s quick thinking, this could have been a tragic situation.

Toney went straight back to work after the incident, got people on board, and finished his shift. “When I got to the end of the line, that’s when it hit me”. “The accomplishment behind it is the most beautiful thing in the world”.

**Fun facts about Toney:**
- His father & two uncles were also Liberty Lines drivers.
- His favorite thing about driving is interacting with riders.
- He keeps busy with 6 kids and 7 grandkids!
- Born and raised in Manhattan.
The 2019 holiday season's Stuff-a-Bus food drive was the first time Westchester County Government's SMART Commute Program, Stop and Shop and Feeding Westchester joined forces to help fight hunger in Westchester County. The food drive was a huge success, collecting over 5,000 pounds of food, which provided well over 6,000 meals for people across Westchester County. "Knowing that people care about each other -- that is the best gift you can give to one another," says Elisabeth Sacc, a local food pantry client. Thank you to our Bee-Line community for helping us stuff the bus!

### The MetroCard® Van February 2020 Schedule
